Buena Vista Suites Renovates Public Areas, Spends \$825,000

September 11, 2013 (ORLANDO, FL) – The Buena Vista Suites hotel in Orlando, Florida, recently completed an \$825,000 mini-renovation. A number of refurbishment projects were completed throughout the property including new floor tile, area rugs and window treatments in the hotel lobby, new carpet, wall treatments, tile, and LED lighting in the guestroom corridors, and new pavers and a landscaping makeover at the pool deck.

“It was important that we minimize any inconvenience to our guests,” said Paul Crumpton, general manager of Buena Vista Suites. “In the end, the decision to close the hotel for a short period made the most sense. The results of the project have exceeded our expectations and we continue to improve and invest in the physical plant of the hotel to better serve our customers.”

Buena Vista Suites created a webpage where guests and visitors can learn more about the renovation. The webpage is <http://www.buenvistasuites.com/bvsrenovation>.

Buena Vista Suites is an all-suite hotel in Orlando, Florida that features 279 two-room suites and is located 1.5 miles from the Walt Disney World® Theme Parks. Each suite is elegantly appointed and ideal for families, business travelers or small meetings.
